## Summary

I am a Third-year Information Technology engineering student at Vellore Institute of Technology. As my graduation days are getting over day by day, so I am eager to secure challenging roles in software engineering.

In the second year of my degree, I learned many skills mentioned below and worked on many projects. I was delighted to be presented with the opportunity to utilize the skills gained during my studies to solve problems in the engineering world.

My studies have provided me with broad proficiency in solving real-life problems and making new websites.

Alongside this, I have developed many websites. As such, I am confident that I can make an immediate impact in engineering roles.

I am eager to hear about potential career opportunities, so I would be pleased to chat about job openings in the engineering sphere.

My essential skills include - Problem-solving skills with data structures, Java, Python, C++, C, JavaScript, HTML, CSS, Node J.s, and SQL.

If you want to know more about me, send me a message or reach out to me at priyanshkotak1@gmail.com.
